HANGAR FLOORING SYSTEM

LEAVE EPOXY IN THE DUST

HANGAR FLOORING

Upgrade the surface your aircraft sits on to not only showcase your plane but create an aesthetically pleasing and functional surface. Swisstrax offers an ideal alternative to standard concrete and epoxy flooring. It's the perfect option to enhance the look of your hangar. Cover up floor imperfections such as cracks, stains, lifted epoxy spots or just plain concrete. The best part is that you can finish installing the system in hours, not days.

Swisstrax modular flooring systems are eye-catching, simple to assemble, easy to maintain and backed by industry leading warranties. Whether you experience snowy winters or hot humid summers, Swisstrax has a solution that will fit your flooring needs. With four available tile styles, you can customize your hangar to fit your style and design.

Swiss Engineered, American Made, and Globally Preferred – Swisstrax modular flooring systems are the preferred solution to customize hangars all across the world.

Do it Yourself

Unlike paint and epoxy, Swisstrax garage floor tiles can be installed in just hours, not days. There are no chemicals, no toxic fumes, and you don't have to clean out your whole garage and wait days before moving your stuff back in!

Chemical Resistant

Industrial strength, Swisstrax garage floor tiles are resistant to oil, gas, acid or solvents including Skydrol and Alkalis.

Slip Resistant

Swisstrax garage floor tiles are a safe solution to moisture creating a slip resistant surface.

UV Protected

Tiles are provided with a 5 year Pigment Package for UV protection.

100% Virgin PP/Copolymer Material
